*The benefits of having a Wound Care Specialty Nurse:*

- ➔ their experience and expertise
- ➔ improved clinical outcomes
- ➔ improved patient care
- ➔ able to manage complex wounds
- ➔ benefit to doctors, hospitals and nursing facilities

WOCN®-Accredited Wound, Ostomy and Continence Nursing Education Program

We are offering an expanded opportunity for your baccalaureate-prepared Registered Nurses to receive advanced training, enabling them to become a Certified Wound Care Nurse or a Certified Wound, Ostomy, Continence Nurse through WOCN®. The American Nursing Association (ANA) recently recognized Wound, Ostomy and Continence (WOC) Nursing as a sub-specialty within the ANA.
