

LEADERSHIP CATALYST

An immersive leadership experience for established nurse leaders

When: May 1st and 2nd, 2025 **Where:** The Westin, Waltham, Mass.

This two-day, in-person program offers immersive leadership development for nurse leaders with two or more years of formal leadership experience. Participants will advance their strategic leadership capacity, gain insights about their leadership practice, and refine their leadership purpose to reflect their values. Upon completing the program, nurse leaders will be equipped with strategies for leading high-functioning teams, strategically navigating relationships, and negotiating for limited resources in complex organizations.

Participants can expect two full days of engaging workshops, insightful discussions, and collaborative activities led by renowned faculty with extensive experience in healthcare leadership. Nurse leaders will also benefit from building meaningful connections face-to-face with their cohort of fellow nurse leaders from New England; program faculty; and ONL leaders, board members, and past presidents during the workshops and networking sessions. These valuable relationships will provide a supportive professional network to whom participants can turn as fellow leaders.

PROGRAM FACULTY

Debra Gerardi
