

Redesigning Nursing Care Delivery

Strategies for Leadership Teams to Jump Start the Process

Wednesday, April 24, 2024 · 12:00 p.m. - 1:30 p.m. ET via Zoom

*For Nursing
Executives & Senior
Nurse Leaders*

Current nursing care delivery models rely on the availability of many nurses and are unsustainable given the reality of significant workforce shortages. The gap between the number of nurses needed to practice primary nursing and the number of nurses available cannot be effectively bridged even with a significant ramp-up in enrollments and certainly not in a cost-effective way.

The transition to a team-based or collaborative care model is challenging despite the need. Nursing leaders know they will need to do this but are not sure where to start.

In this 90-minute session for senior nursing leaders and executives, Dr. Rose Sherman will share guidance and strategies to help to jump-start your leadership team's nursing care redesign efforts and share the infrastructure needed to ensure success.

Don't miss the opportunity to discuss and collaborate on this pressing topic with fellow nursing executives and senior leaders from across the region!

Rose Sherman, Ed.D, RN, NEA-BC, FAAN
Nursing Leadership Development Expert & Author

Dr. Rose Sherman is a nationally recognized thought leader on nursing and healthcare leadership. She works with health systems and professional organizations nationally to develop and coach current and future leaders. She also serves as Editor in Chief of *Nurse Leader*, the official journal of the American Organization of Nurse Executives. She is an Emeritus Professor at Florida Atlantic University and a faculty member in the Marian K. Shaughnessy Leadership Academy at Case Western Reserve University. Dr. Sherman writes a very popular blog, emergingrnleader.com, and is the author of *The Nurse Leader Coach: Become the Boss No One Wants to Leave* and of *A Team Approach to Nursing Care Delivery: Tactics For Working Better Together*.
