DAY 1

Healthcare Innovation

Innovation is one of the hottest topics in healthcare today. From the bench to the bedside, teams seek new ways to improve patient outcomes. However, it can be challenging to determine evidence-based pathways for innovation. Join us for an interactive workshop where you'll learn how to incorporate innovation and entrepreneurial principles into your daily practice, and improve patient outcomes.

Objectives:

Participants will be able to:

- Define healthcare innovation
- Discuss the history of healthcare innovation from a nursing perspective
- Identify innovation and entrepreneurial principles to assist healthcare professionals improve patient outcomes
- Engage in replicable innovation activities that healthcare leaders can employ with their teams
- Demonstrate how to develop a compelling pitch

DAY 2

Regaining Joy in Work

The most joyful, productive, engaged staff feel both physically and psychologically safe, appreciate the meaning and purpose of their work, have some choice and control over their time, experience camaraderie with others at work, and perceive their work life to be fair and equitable. IHI has partnered with experts around the world to offer new thinking and resources around joy in work. Join Maureen as she explores the meaning of joy, why it is essential in today's healthcare environment, and offers strategies for infusing joy in work environments. She will enrich this discussion with anecdotes and highlight global work that is occurring in the area of joy.

Objectives:

Participants will be able to:

- Discuss the importance of joy and meaning in work environments
- Identify best practices for cultivating an environment that facilitates joy and meaning in work
