***Gain insights, inspiration, and actionable strategies  
and connect face-to-face with fellow nurse leaders!***

### KEYNOTE SPEAKER

**Tim Cunningham, DrPH, MSN, RN, FAAN**

Director, Focus Area for Compassion and Ethics,  
*The Task Force for Global Health*

### Abundant Leadership: Finding New Ways Forward

Without abundance, well-being cannot thrive, and there's a business case for that. This session explores the differences between abundant mindset and scarcity mindset, using interactive activities to help consider ways to approach old problems with a "new mind" and to reap the benefits of well-being, emotionally, physically, and monetarily from a health-systems perspective. We'll engage with one another using story-crafting and agility exercises to best understand the abundance we bring to our work.

### Finding Florence: The Power of Your Story

Storytelling is a powerful leadership tool for inspiring others. By crafting and sharing compelling narratives, leaders can connect with their teams on an emotional level, build trust, and motivate them to action. This session will engage participants in storytelling practice, narrative medicine, and other experiential activities to help us see our colleagues, our patients, and our community through inspiring lenses.

### ONL Business Meeting

The ONL Business Meeting offers a chance to learn more about the core work of ONL to empower nurse leaders and advance nursing leadership. ONL Board members and staff provide updates and insights about key ONL priorities, project highlights, programs, policy and legislative activity in the region, developments impacting nursing practice and leadership, and more. This is also a forum in which ONL recognizes our members' recent milestones and achievements. *All are invited to attend.*
